English Translation:

In the night sky, they twinkle
The far stars of gold
The same color as the small bird
that looked up in my dream last night

In the sleepless night,
I sing this song alone
Together with the blowing wind,
I fly riding on my thoughts

In the night sky, it sparkles
The distant moon of silver
The same color as the wild rose
that was blooming in my dream last night

In the gentle night,
I sing this song alone
Let me sing with you tomorrow
Riding the wings of dreams (x2)
